

Excellence & Opportunity

Post-16 Transition Support

Level 2/3 Award in Electrical Installations

Transition Project

In preparation for your course, you should aim to look at and familiarise yourself with the following resources and tasks:

Knowledge Topics – Getting to know the basics

You can get the flavour of the course offered at Darlington College by browsing through and trying interesting interactive resources, videos, and activities on the websites below. This way you can experience the type of things you will be learning at College.

Below are links to **electrical specific activities** that you could complete or review:
