

# Post-16 Transition Support

## Level 3 Award in Interior, Architecture and Product Design

### Transition Project

In preparation for your course, you should aim to look at and familiarise yourself with the following resources and tasks:

#### Knowledge Topics – Practising the basics

It is always important to practice and experiment with drawing and in particular 2 Point Perspective.

Here are a few online tutorials you may wish to follow, they are for beginners and get progressively more complex.

I would suggest you start at the beginning and work your way through.
